

# Why Did The DINOSAUR

Die Off?

To answer that question, first we have to know that **God** made the whole world in 6 days 10,000 years ago. He made heaven, the stars, plants, animals, and human beings. In fact, **God** made dinosaurs too! The first man and woman were called **Adam** and **Eve**.

Things were perfect then. Even the climate was perfect. There was no rain, but the **Bible**, God's Word, says in Genesis 2:6 that the whole surface of the earth was watered by a mist that came up from the earth.

This mist helped plants to grow. Dinosaurs had lots to eat and drink because the ground was fertile. They grew well during those times.

But one day, Adam and Eve disobeyed God. They sinned against God who made them and loved them. As a result, the earth was cursed and thorns and weeds began to grow as well. From then on, all men were born sinful. The natural process we now know as DEATH also came upon all living things.

The numbers of dinosaurs may have grown smaller as it became more difficult to find enough food for their huge bodies.

As the world became more sinful and corrupt, God had to destroy the world in a big flood.

He put a man called **Noah** and his family in a big boat, called an ark. Two of every living creature, male and female, went into the ark as well.

Yup, dinosaurs went in as well!

God caused it to rain very heavily until the whole earth was covered with water. All human beings and land animals drowned, except Noah's family, and the animals in the ark with them.

After the flood, many climatic changes took place. Instead of a uniform temperature the whole year round, it became hot and cold. There were times the weather was very **HOT**, like in the summer, and times it was very **COLD**.

Dinosaurs are cold-blooded animals. That means their body temperature changes with the outside temperature. Those enormous dinosaurs could not adjust to the extreme temperature changes, and slowly began to die off.

We know that dinosaurs once lived with man, but are today extinct. This happened because of man's SIN. We are all sinners because the first man sinned.

If you think that you are a good child, and have not done anything really bad to be called a "sinner", remember the time you quarrelled with your brother or sister? Or told a lie? Or refused to obey your parents?

The penalty for sin is spiritual death in a place called hell. We would not be able to be with God in a wonderful place called heaven.

**HEAVEN** or **HELL?**

But God provides a way for us to live, just like the ark He put Noah's family in. He sent His only Son, Jesus Christ, to die on the cross for your sins.

"For **God** so loved the world that He gave His only begotten Son, that whosoever believes in Him, shall not perish, but have eternal life."  
(John 3:16)

Jesus rose from the dead, showing He had power over sin and death. Indeed, the only way to be saved is to believe in the **Lord Jesus Christ**.

God will forgive your sins if you come to the Lord Jesus as a sinner and receive Him as your own Saviour.

To receive this free gift of salvation through Jesus, you have to say this prayer to God:

Dear God,

I know that I have sinned. I am sorry for my sins. I believe that Jesus Christ is the Son of God, and that He has taken my place when He died for me. Thank You for loving me and for sending Jesus down to earth. Please come into my heart today and make me a child of God. In Jesus' name I pray, Amen.

Will you receive Jesus today?
